

How We Started Insuring Cars and Why We Do It Better Than Others

Welcome to **Insurance Agency Plus** – where customer care comes first.

Our journey began over **15 years ago** with a simple yet important mission: to make auto insurance **accessible, transparent, and reliable** for every driver. We saw how difficult it was for people to navigate the complex insurance market, and we decided to change that. Before founding this agency, I worked in various insurance companies for many years, learning their strengths and weaknesses. The key takeaway? **A personalized approach to every client.**
